

CSC320 — Assignment 8

Abdullellah Alnumay — 436102030

Running program copyf:

1- No arguments:

```
[bash-3.2$ ./copyf  
usage: copyf <source> <dest> [<dest2> ...]
```

2- Pass only source_file:

```
[bash-3.2$ ./copyf src  
usage: copyf <source> <dest> [<dest2> ...]
```

3- Pass source_file and single dest_file:

```
[bash-3.2$ ./copyf src dest  
file copied successfully!
```

src file:

```
[bash-3.2$ cat src  
hello
```

dest_file:

```
[bash-3.2$ cat dest  
hello
```

4- Pass source_file and multiple dest_files:

```
[bash-3.2$ ./copyf src dest1 dest2  
file copied successfully!  
Copying file dest1 successful  
Copying file dest2 successful
```

dest1:

```
[bash-3.2$ cat dest1  
hello
```

dest2:

```
[bash-3.2$ cat dest2  
hello
```
