

# CSC320 — Assignment 11

Abdullellah Alnumay — 436102030

---

## Selection function:

I implemented a function that selects files based on their size. The size is passed to the program as an argument. If no size was passed, then the default value of 64 bytes is applied.

---

## Sorting Function:

The sorting is based on the files' sizes in a descending order.
